

Government Affairs and Public Policy State Proclamation Requests

A Governor's Proclamation is a ceremonial document and declaration on behalf of the entire state. These documents influence policy discussions, public awareness, and offer exciting opportunities to further engage the public and elected Representatives on issues of significance.

The name or language for such a request may change depending on the state. In addition, some states may still require constituents to send their request in writing or through a general contact form online rather than a separate request form. Please be sure to read the requirements posted on your Governor's website prior to sending.

If your Governor's office is unresponsive or has a long and complicated process for Proclamations, consider requesting a Proclamation from the Mayor of your state capital or a major city in your state. Large cities, large states with diverse regional geo-political landscapes, and local city councils often have their own processes for such ceremonial acts. The ACA Government Affairs and Public Policy team would be happy to aid in navigating this process if a state is interested in pursuing this option.

States will be provided a draft script for annual ACA initiatives and interests, such as Counseling Awareness Month and Minority Mental Health Month. States are requested to amend the language as necessary and to submit on behalf of their members. Please contact the ACA Government Affairs and Public Policy team once a Proclamation has successfully been submitted via DMarsalek@Counseling.org.
